### PUBLIC INVESTMENT IN GRANTS TO NONPROFIT ARTS ORGANIZATIONS & ARTISTS

**Q** What about Arkansas—how much does state government budget to the Arkansas Arts Council on the Arts each year?

**A** In FY 2020, the state allocated $1,425,944 to the Arkansas Arts Council. The Arkansas Arts Council also received $649,900 in federal NEA funds, which the Council re-granted to dozens of cultural organizations through the state. Another 19 nonprofit arts organizations received direct grants from the NEA totaling $485,000.

**Q** So how much is the federal government investing in the National Endowment for the Arts (NEA)?

**A** Congress has proposed allocating $162.25 million to the NEA in FY 2020, which has been relatively level for the last several years. This amounts to just 49¢ per capita, yet the nonprofit arts industry generates over $13 billion in federal tax revenue back to the treasury. Imagine what nonprofit arts groups could generate with $1 per capita!

“Arkansas must differentiate itself from the pack, rethink its special advantages, and look for creative sources of growth and inventive niches that can resist competition, imitation and importation—in short, develop its creative economy. The future of Arkansas will rest heavily on its creative talents and assets, both through the image-producing industries they represent and the value they add to other sectors. —Creativity in the Natural State: Growing Arkansas’ Creative Economy
